## SOMMAIRE

Editorial	p.2	The Royal	p.6-7
Winter Carnival	p.3	Texas Trip	p.8
Lettres ouvertes	p.4	Etc.	p.9-10
Coop	p.5	Poems	p.11

Une nouvelle année débute. Bien des résolutions ont été prises en ce début du nouvel an. Certaines seront éphémères, d'autres persisteront quelques semaines ou bien quelques mois, et très peu résisteront aux futures embûches que cette année leur réserve.

Les résolutions touchent tous les points; étude, travail, activité sportive, nutrition, amitié...elles sont innombrables. En ce début d'année, une

bonne résolution pour chacun d'entre nous, et particulièrement pour les étudiants de première année, sera celle de l'implication.

Implication au niveau des activités sociales et culturelles de notre vie universitaire. Que se soit dans le domaine du recyclage, d'activités sportives (volleybal, natation, ski de fond...), du carnaval qui approche, de la Royal qui s'en vient aussi à grands pas, ET de votre journal!

Encore une fois le journal de la faculté éprouve de la difficulté à remplir ses quelques pages. Mais pourtant ce n'est pas le potentiel qui manque. Nous sommes en totalité 1500 étudiants qui partageons la terrain, mais il semble que les étudiants ont peur de s'impliquer! Ce n'est pas bien difficile de donner une heure ou deux de son temps par semaine. Cela nous change les idées, et nous donne la chance de rencontrer des gens intéressants. De plus

je suis persuadé que beaucoup d'entre nous ont des choses à dire, à raconter, à partager, et ce journal est là pour ça! Il n'attend qu'un geste de vous, qu'une histoire.

Donc si il reste des gens qui n'ont pas encore pris de résolutions, dites-vous que le temps de l'implication est arrivé, et que nous n'attendons plus que VOUS...Mes amis(es), à vos plumes!

## 1000 REASONS FOR NOT READING THE HARVEST

- 1) IT'S THE SAME OLD BORING ARTICLES  
...But unless you contribute will we have the quality articles?
- 2) NO TIME  
...Maybe, but it takes less than one hour to read one edition. For the time you spent at the deep-end alone, you would read at least 100 issues.
- 3) THEY JUST DON'T TALK ABOUT THE THINGS I LIKE  
...It's true. We know there is LIFE in Laird Hall but there is NO ONE to write about it.
- 4) I AM PART OF MAC AND I'M PROUD OF IT  
...But the Harvest is part of the Mac spirit and if we're not proud of it who will?
- 5) I WISH THEY HAD  
...Chances are the Gossip column you thought of would be a

- big hit--but we won't know unless you try.
- 6) THERE IS NO CENSORSHIP. How can they print some of those stupid articles!  
...You can't censor a lot if all you receive are 10 articles.
- 7) I HAVE NO WRITING SKILLS  
...Neither do we. This is not TIME magazine. All that is needed is an ARTICLE--any article. Let us worry about quality, not you.

On behalf of the Harvest,  
This is Ken Wiyo

P.S. For the remaining 993 reasons why you can't read/participate with the Harvest why don't you write...

## INFORMATIQUE:

### DU NOUVEAU AU COLLEGE !

Dans la dernière édition, je vous faisais part du manque d'ordinateurs au college. Et bien on m'a révélé dans les coulisses que le "Computer user committee" fait présentement des pressions sur la direction (Mr. le DEAN) pour l'acquisition de nouveaux ordinateurs. Aucun montant n'a encore été mentionné, mais le "Committee" voudrait bien obtenir 40 nouveaux P.C. (dreams...). La réalité porte plutôt à croire qu'il n'en obtiendra qu'une quinzaine! C'est déjà bien.

Il faudra emménager dans une salle ventilée, pourvue de nouvelles tables et chaises. Le

tout pour une valeur approximative de 200,000\$!!! La nouvelle salle sera emménagée dans le local des étudiants gradués du département de génie (en face de la salle d'ordinateurs actuelle), qui eux déménageront dans les locaux de "dietetics", qui à leur tour déménageront dans la salle du "Lyman Museum", qui lui finira dans le sous-sol du C.C. C'est ce qu'on appelle un long cheminement, mais que voulez-vous, c'est ça la bureaucratie (oui, oui Paul, je sais).

Donc pas de nouveaux ordinateurs avant l'an prochain.

Variety  
Talent  
Show !!!

Thursday  
January 26<sup>th</sup>  
9:00 P.M.

DEEP  
END

## FROSTY FROLICS '89

Carnival has always been the greatest fun of the year with joy-filled events designed to suit everyone's taste. Carnival will be kicked off with the wackiest football game of the year - the Udder Bowl - and followed by many more exiting activities such as the Frosty Frolic Variety-Talent Show, a Crazy Hous Crawl,... and will wind up with Ski Day at Mont Orford.

You Can Sign up for all the activities in the MS-Foyer. If you require any more information please feel free to contact any of us at Harrison House.

Joyce, Linda & Laurie.

## ET LES SERVICES EN FRANÇAIS AU COLLEGE ?

C'est bien désolant de constater que très peu de services sont offerts en français, même si les étudiants francophones sont en majorité. Ce n'est pas un droit que nous avons d'avoir des services dans notre langue, mais quelque chose de naturel et normal et qui devrait être disponible pour n'importe qui, n'importe quand. Si nous ne sommes pas capables de nous faire respecter dans notre langue ici, au Québec, on le sera encore bien moins ailleurs au Canada. Il est aberrant de constater que plus de 60% des étudiants au collège n'ont accès qu'à très peu de services dans leur langue à commencer par notre propre "service aux étudiants". Il faudra que ça change et vite, et s'il faut changer de personnel, à défaut d'apprendre le français, on le changera.

Si on regarde maintenant du côté du collège, mis à part le bureau du registraire, où l'on nous accueille bien en français (félicitations!) les autres services en français sont pratiquement inexistants: au bureau de poste, service des finances, service de santé, service d'orientation, bibliothèque, librairie, centre athlétique, à tous ces endroits où l'on devrait être capable de recevoir des services dans notre propre langue. Je crois sincèrement que la meilleure publicité que le collège pourrait s'offrir, serait de s'intégrer et de s'impliquer dans la société Québécoise, plutôt que de s'isoler et de demander par lettre (comme cela c'est produit au cours de l'automne dernier) aux membres du personnel de faire discrètement du recrutement pour tenter d'arrêter l'érosion de la clientèle étudiante qui persiste depuis quelques années. A. René

## LES CLOCHES...

### ENCORE LES CLOCHES !

Sommes-nous assez matures pour nous en passer?

J'espère que toutes les personnes présentes lors des premiers jours de la session 89 ont pu jouir pleinement du calme et de l'atmosphère paisible que nous offrait notre école.

Sûrement, cette harmonie était en partie due aux retrouvailles après le trop court congé des fêtes, mais quelque chose d'autre régnait dans l'air par son silence. Eh oui, les dirigeants ont osé nous laisser sans cloche (ce qui était probablement notre cadeau pour avoir été de bons petits(es) élèves) aller et venir à notre propre rythme pendant deux jours. Que de risques ils ont pris...

Savez-vous que d'après un petit sondage maison, MacDonald College serait le seul campus universitaire Québécois à utiliser le système quasi militaire ou secondaire pour ses étudiants(es)! C'est à croire que nous ne sommes pas assez matures pour savoir nous-mêmes quand nos cours commencent et se terminent!

Franchement, ne pensez-vous pas qu'il serait temps que la direction cesse de nous les casser avec cette absurdité de cloche et laisse aux étudiants la responsabilité d'être ponctuels? Car si nous ne pouvons le faire à l'université quand croyez-vous que nous en serons capables?

SERGE GRENIER

## SUPPORT FOR THE COOP COMMITTEE

Dear Coop Committee,

I believe that the lack of a coop on campus is of an even greater loss to those living in Laird Hall because of the types of services which would have been offered by the MacCoop, such as the sale of milk, magazines, newspapers computer supplies and many more.

Eventhough 92% of the students on campus last year voted for a coop, Dr. Buckland and Mr. Charade thought it better not to allow this service to be offered without ever consulting the students. Are the needs of the students at Mac insignificants or of no importance, or would the loss of the so-called bookstore cause too much of a budget ??

Besides, do we really need to have full-time employee selling pencils and erasers 34 weeks of the year (including the summer). Furthermore, prices are cheaper if one simply crosses the street to that other school. Perhaps because they have students working at their bookstore ??

What ever happened to democracy?? I think that the students of MacDonald College would be interested in hearing Dr. Buckland's reason(s) for blocking the formation of Mac's first real coop. Note however that it is the students responsibility to voice their opinions if they wish to have better services on campus, not just that of the Coop Committee.

" As long as the sheep are quiet, the shepherd will rest easy."

## LE PROJET DE MISE SUR PIED D'UNE VERITABLE COOPERATIVE EST-IL MORT ?

Non! Le projet de transformation de l'actuel "bookstore" en coopérative est un projet déjà bien en marche; nous sommes prêts techniquement à débiter les procédures d'incorporation et d'affiliation à la Fédération Québécoise des Coopératives en Milieu Scolaire (FQCMS). De plus nous avons l'expertise technique nécessaire pour nous permettre d'exploiter une telle entreprise de façon rentable et efficace et surtout d'y ajouter ce qui manque le plus: du dynamisme et de la diversité.

Des études de rentabilité et de faisabilité effectuées au printemps dernier ont démontré la viabilité et la rentabilité du projet mis de l'avant par les étudiants du collège. Nous avons reçu de la FQCMS et de la Société de Développement des Coopératives (SDC, ministère de l'industrie et du commerce) appui ainsi que support financier et technique à notre projet. Le projet par son sérieux et son réalisme fait peur à l'administration du collège à tel point que les seules raisons invoquées furent une connaissance insuffisante du système coopératif et une question d'idéologie.

L'administration est disposée à restructurer le magasin scolaire mais à condition d'en conserver le contrôle et sans tenir compte des besoins et des revendications des étudiants. C'est pour cela que la seule solution acceptable pour nous, étudiants, est la mise sur pied d'une coopérative, car c'est la seule forme d'organisation qui

permet d'exercer un contrôle démocratique partagé par l'administration du collège, les membres du personnel et les étudiants.

Donnons-nous un outil essentiel à notre développement culturel et intellectuel, au même titre que celui dont disposent presque tous les CEGEPs et universités du Québec: une véritable coopérative pour remplacer le "bookstore".

Vous savez, l'entreprise coopérative se développe et assure des services à ses membres dans le but de les satisfaire; voilà sa première préoccupation. La coopérative en milieu scolaire est l'atelier idéal et privilégié pour l'apprentissage des valeurs coopératives, valeurs dont sont issues plusieurs institutions omniprésentes dans notre quotidien.

## LA COOP EST LA POUR VOUS

Encore une fois la MACOOP sera ouverte cette session pour vous offrir l'équipement informatique nécessaire aux étudiants et étudiantes du collège. Cette session une fois de plus nous tenterons d'offrir plus de produits ainsi qu'un meilleur service.

Voici quelque exemple de ce que nous avons; papier blanc 40m en paquet de 100, 500, 1000, et boîte de 2500 feuilles, ainsi que du papier informatique de couleur disponible en bleu, vert, jaune, rose, et gris, des étiquettes pour adresse, des fiches 3" x 5" relier pour ordinateur, des rubans pour imprimante EPSON FX-185 et LX-800, des disquettes 5" 1/4 et 3" 1/2, des boîtes à disquettes pour 10 ou 100 disquettes, des crayons pour table à dessin électronique (plotter pen) 0.3 autre grandeurs et couleurs disponible sur demande.

Pour tout autre produits que nous n'avons pas, venez nous voir, nous pourrions peut-être le trouver. Tous nos produits sont vendus à un prix très compétitif. Surveiller nos affiches pour connaître les nouvelles heures d'ouverture pour cette session.

Le comité MACOOP.

## MACDONALD COLLEGE AND THE IMPACT ON YOUR ENVIRONMENT

41<sup>ST</sup> ROYAL FEBRUARY 10-11 1989

PAGE 6

THE HARVEST

JANUARY 1989

Every February, at MacDonald College, we present the Macdonald College Royal. This event is a fair or an open house, if you prefer, totally organized by Mac Students and the staff. This event is an opportunity for the College to open its doors to the public with respect to its many undergraduate and postgraduate programs. Activities of the Royal include booths on agricultural, environmental and food science programs, research and information. There are also many demonstrations open to the public such as the livestock Show in which each person is responsible for training

his or her animal, turning and halting before a judge. The show begins with preliminary judging of the dairy bree and winds up with sheep, beef cattle, swine and the final dairy classes. Perpetual trophies, keeper trophies and ribbons are awarded to the top showmen.

It is because of population's growing concern for our environment that this year's theme "the Impact of Agriculture on your Environment" is relevant. It's during these two days, February 10<sup>th</sup> and 11<sup>th</sup>, the College will have the opportunity to introduce its various programs and

careers to which they lead to our society. This year, the Quebec Intercollegiate Judging Competition will also be hosted at the MacDonald Royal as part of the Livestock Show and Judging competition. Many English and French Institutions will Participate this year including teams from Quebec, Ontario, the Maritimes and the United States.

It is for these reasons every Mac student is specially invited to participate, individually or as a group, to this special event. You could do this by showing your field of studies and its many career opportunities in

our agriculture environment, find out what are the ongoing research of your department, and how this has an impact on our environment.

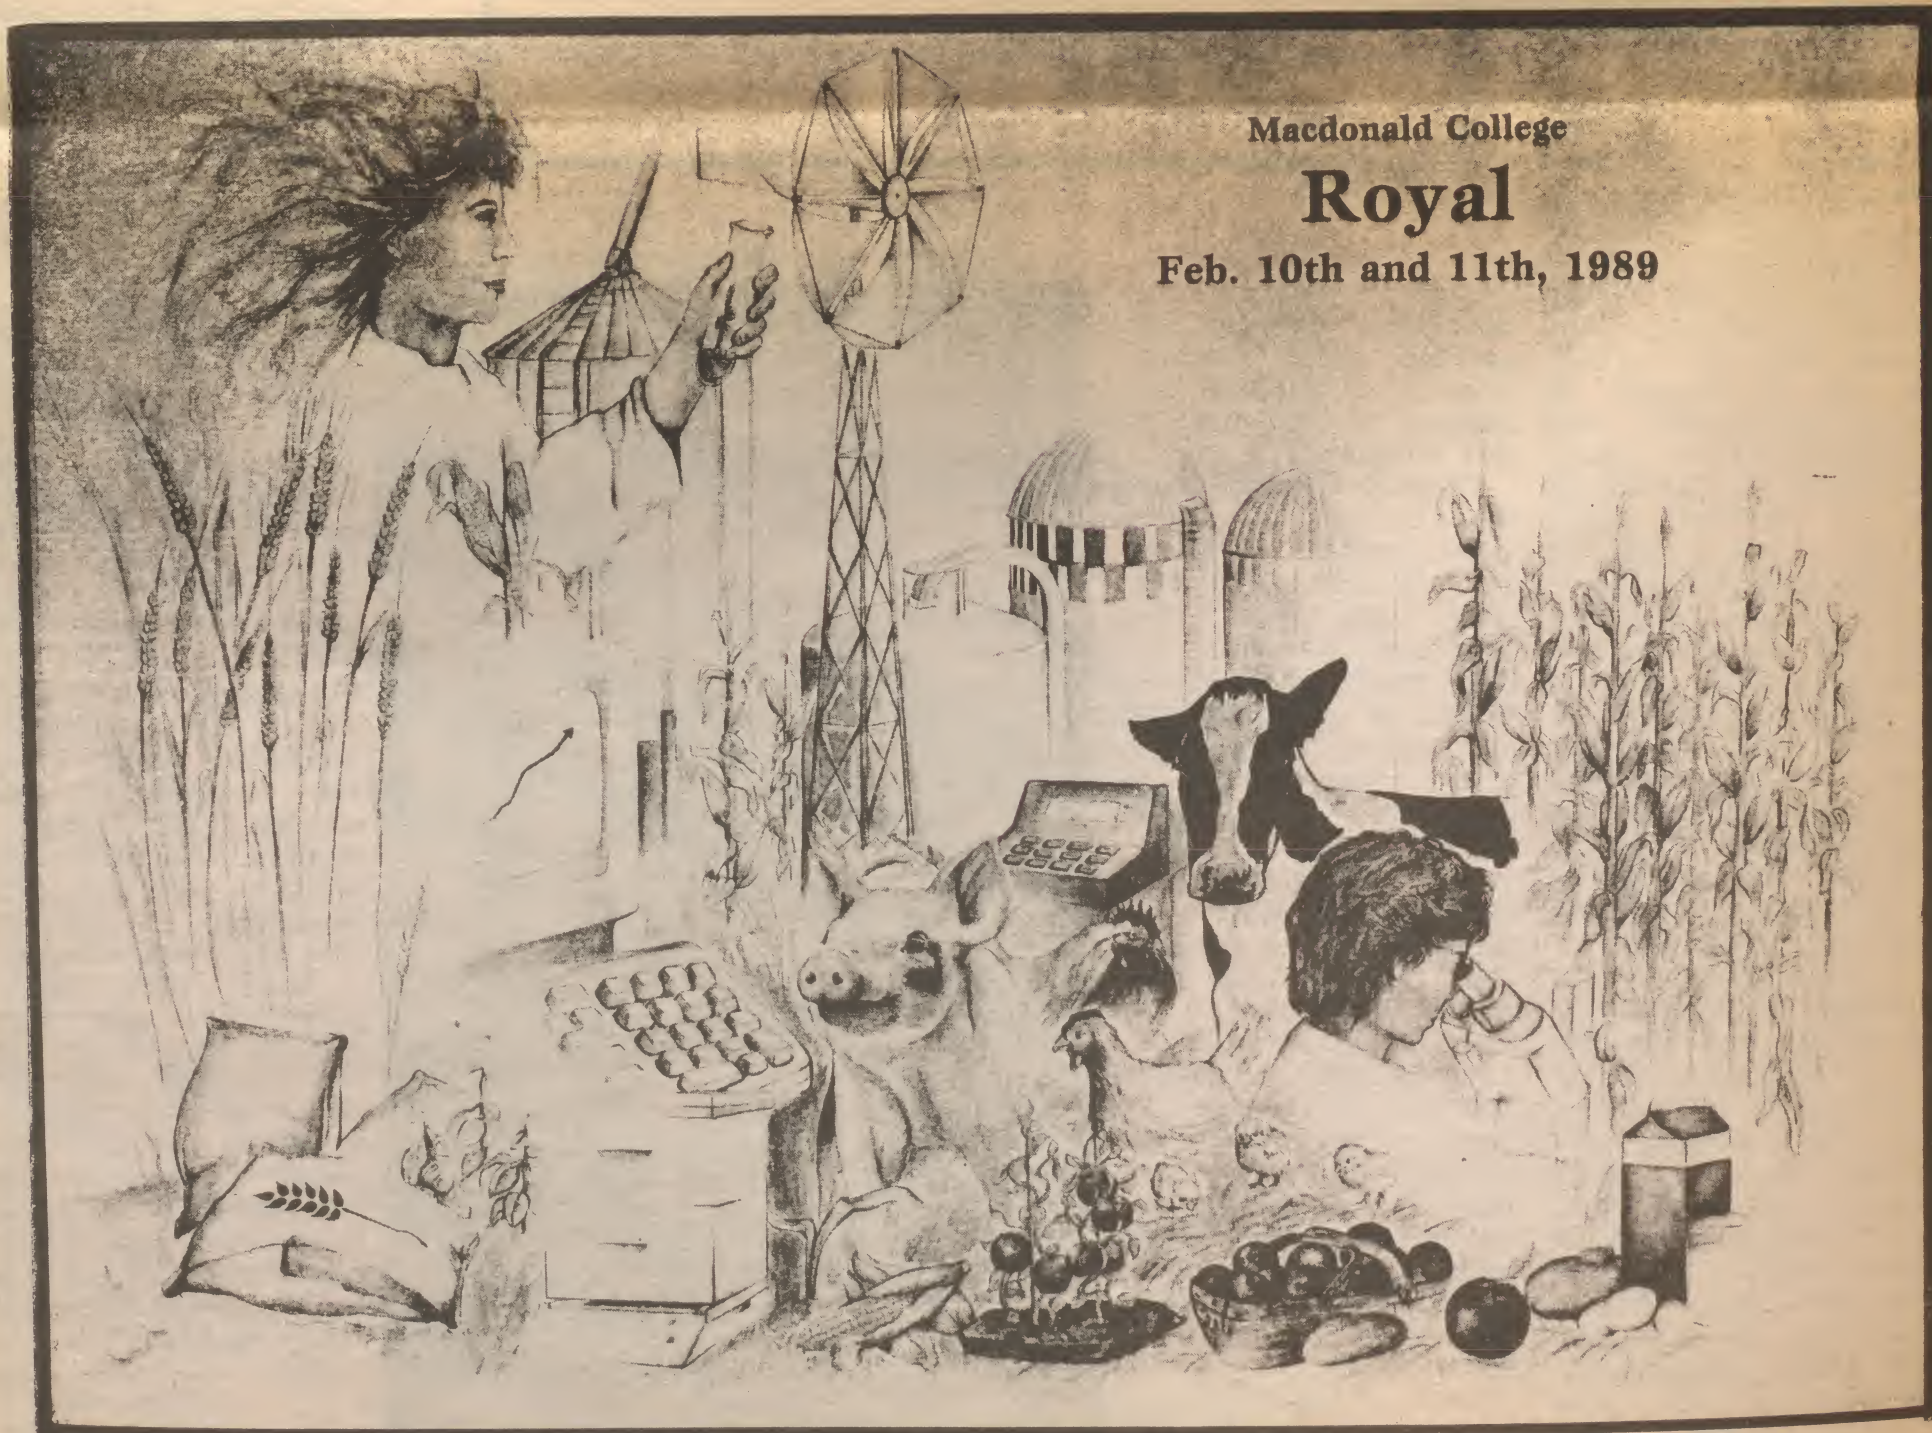

I can assure you that you can use your sense of creativity and imagination and work something out. I Count on your participation to this special event because it is the key to the Royal's success !!!

Please, contact Marie-Helene Desrosiers at 335-9269 if you want to show a display or a booth, or give ideas or even, what we mostly need, give us a hand!

Again, we're counting on your participation...

Thank you,  
Joyce Healy

Responsible for the Royal's publicity.

Macdonald College

### Royal

Feb. 10th and 11th, 1989

# SHOWCASES AT THE '89 MACDONALD COLLEGE ROYAL

Expect the Centennial Center to be alive and teeming with activity at this year's college royal. At 12 noon on Friday, February 10<sup>th</sup>, 1989, the doors will open and welcome all to discover and participate in booths and displays organized by MacDonald College Students. The displays are designed to showcase the particular interests of students in each department and club at MacDonald College. This year's theme is "The Impact of Agriculture on Your Environment". In addition other organizations, for example "L'ordre des Agronomes du Quebec" will be represented. Students are welcome to organize a display independantly based on their personal pet topic in agriculture.

All showcases organized by students will be competing for a first prize valued at \$150. Prizes for first and second runners up will also be awarded.

The Royal Committee encourages everyone to participate. To become involved in your departmental showcase get in touch with the "Resource Person" in the department. If a resource person has not been appointed, ask the department chairman to enlist one. Then you can begin to organize your ideas. Register your booth and reserve a ten square foot space in the Centennial Center by contacting the booth supervisor, Andrea Roper, at 457-3478. Tables, chairs and poster boards will be made available. Displays can be set up beginning the evening of Thursday, Feb. 9. They must remain up until 4pm Saturday, February 11. Displays must be down by 6pm on Saturday, February 11. Info meetings will be announced in the Mouthpiece so stay tuned.

Get involved with some friends. It is a great opportunity to develop your organizational and communication skills. And it's fun.

If you are getting bored sitting in the back of hot, stuffy, R2-045 and are just itching to do something a little more tangible, particularly if you're in Animal Science, your chance of a lifetime is fast approaching. The 1989 Macdonald College Livestock Show will be held on Saturday, February 11th, 1989. All Mac students are invited to try their hand at preparing and exhibiting livestock, namely cattle, sheep, or swine. If you've never been near a show ring, don't worry, we have novice classes and clinics to help you with everything from preparation of your animal to the making of its halter.

To get involved, simply

leave your name and number under the appropriate category on a sign-up list which will be posted in the MS foyer. Clinics are scheduled as follows:

Dairy Preparation January 10th  
January 25th  
Beef & Sheep Preparation January 18th  
Swine Preparation January 24th  
Halter making January 30th  
February 1st

Clinics will start at 7 pm. at the farm; watch the mouthpiece for any changes to the above schedule. For further info, contact Martin Doyon, the Livestock Show Chairman in room LH 219 of myself at 457-3822. See you at the Show!

Stephen Clark,  
President, Livestock Club

# WHAT IS THE TEXAS TRIP COURSE OFFERED BY THE RENEWABLE RESOURCE DEPT.

PAGE 8

THE HARVEST

JANUARY 1989

The objective of this 2-credit course is to give the 20 students going on the trip the opportunity to live a dry land experience. This course is intended to bring together, as a laboratory experiment does, all the background knowledge concerning adaption to heat and drought learned in previous course work. In south-east Texas we emphasize the Chihuahuau Desert. In Arizona we focus on elevation as a factor of ecological zonation. Thus we see a wide spectrum of the associations from the Canadian life zone to the Sonorau Desert. In the last phase of the trip we explore the high desert. Here we concentrate on the historic and arheological aspects of this changing land.

Unquestionably the trip encompasses the most exceptional famous sites of the Southwest. Students see about 180 species of birds, and get great opportunities to observe mammals, reptiles and a few amphibians.

From a resource point of view, students get a great opportunity to grasp the problem of dryland agriculture and man's ability to create major changes in desert ecosystems.

The course evaluation is based on the following 4 elements:

- 1) A pre-trip exercise (worth 20%) where each student is responsible for a small report which will describe a specific area that will be visited by the whole group on the trip. The description will be on the physical attributes of the area, including elevation, precipitation, days of sunshine, geology,

soils, geomorphology, but also with vegetation and the faunal assemblage that will be encountered.

- 2) A field note booklet, compiled during the trip (worth 80%) and should include the itinerary, the weather, vegetation and a list of the

species observed at each site, and the type of habitat of

Along the trip, the 2 vans used for transportation will do a lot of kilometers and therefore the cost of the transportation is high. For this reason, the bake sales and the poster sales are done to raise some money to pay a part of the cost of transportation. The benefits of these sales are only for those who were involved in these activities.

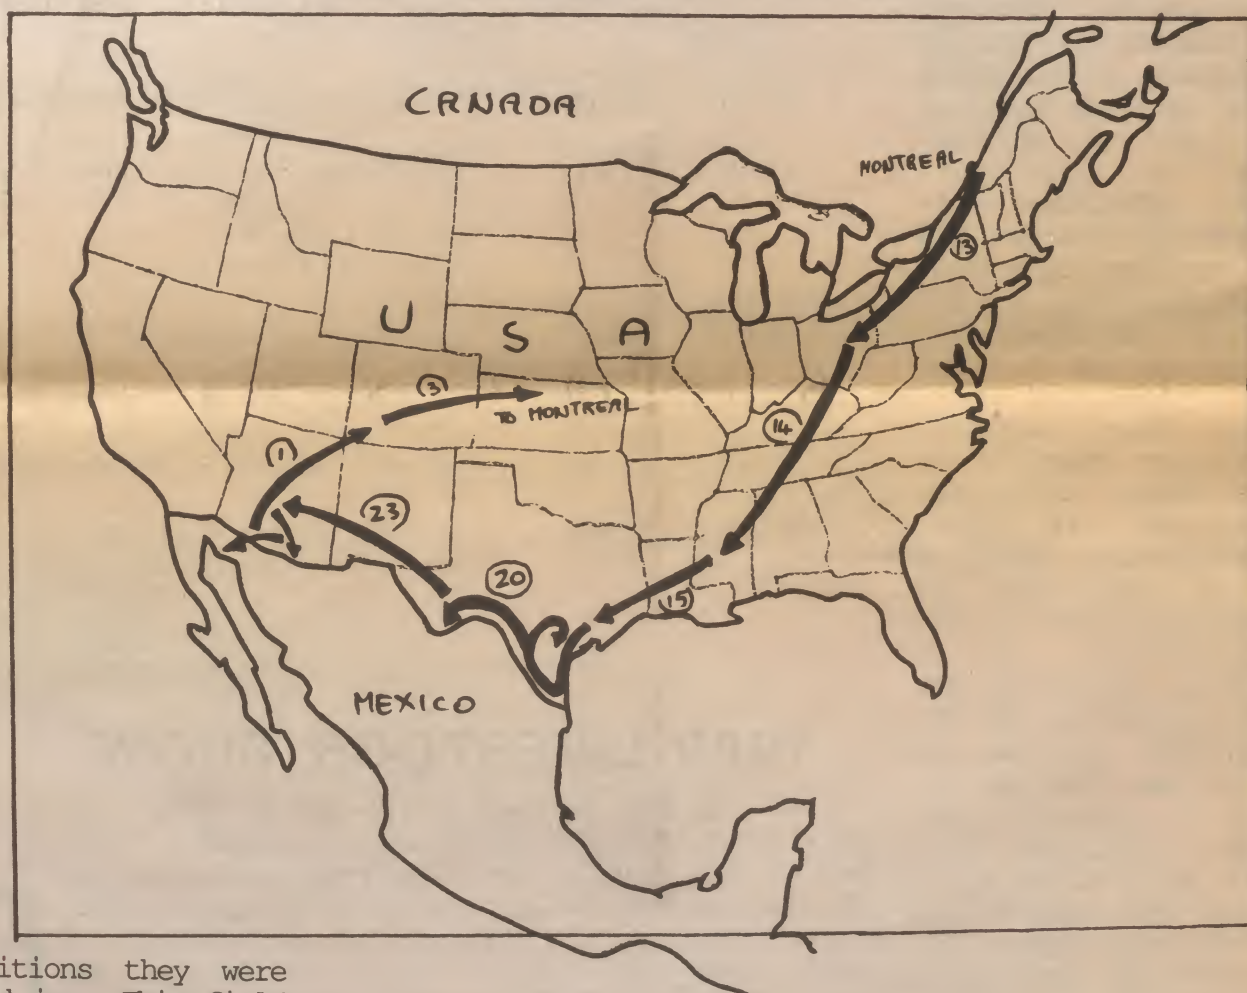

The trip will last nearly 3 weeks and the probable itinerary followed is shown on the following map. The day of departure is Thursday

the 13 of April at 17:00 and the day of return to Ste-Anne-de-Bellevue is Friday the 5th of May.

Unfortunately, the 13 of April falls on the first week of the final exams, and for this reason, some courses for which final exams are after the 13 of April should be done before the 13th by those students going on the trip, (with the patient and tolerant cooperation of the teachers teaching these courses!)

NICOLAS URBANI

PROBABLE ROUTE TO BE FOLLOWED

conditions they were found in. This field note booklet should be something one would enjoy reading in 20 years.

- 3) The degree of participation in ecological activities as opposed to sitting around and asking others what they saw will be noted. Marks will be taken off, from 1 to 10%, with little participation.

- 4) The degree of cooperation with camp chores and all around congeniality: again, marks will be taken off, from 1 to 10%, with little participation.

## LAIRD HALL XMAS PARTY A GREAT SUCCESS

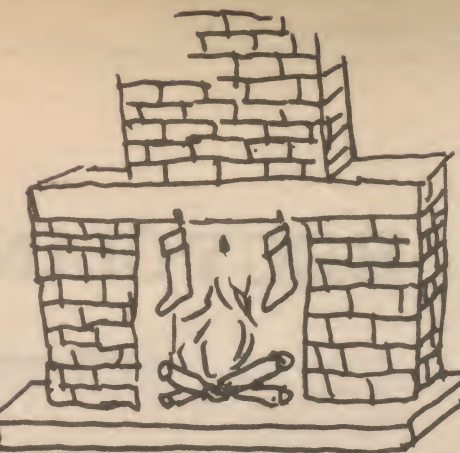

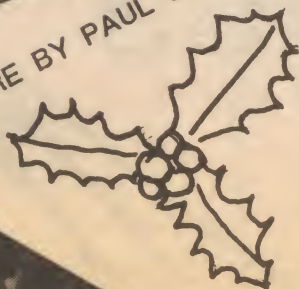

Once again this year, the Laird Hall House Committee organized a Christmas party for residents. Held at the Quai Sera (Montreal's #1 Spot according to CHOM and many of our own revellers) on Monday the fifth of December; guests were treated to a mouth watering buffet and, following weeks of anticipation, were able to meet their "secret friends" as Santa Claus delivered their revealing gifts. Our northern visitor then went on to distribute the prizes for the door decoration contest before hopping back into his sleigh.

After the traditional Mac Christmas carol of "DIP-DIP-DIP" was sung by a joyfull crowd and all the refreshments had been consumed, it was agreed that the party was a success and should be repeated monthly to keep the holiday spirit(s) flowing. Whether or not this occurs, the organizers deserve one more round of applause: Thanks!

P.C.

PICTURE BY PAUL CHAMBERLAND

## DOES GOD EXIST ?

The existence of God is a profound question with powerful arguments both for and against. Rather than examining the evidence and deciding for themselves, many people choose to blindly accept or reject the existence of God, basing their decision on what they were brought up to believe, or what society tells them to believe. A sound decision requires examination of evidence, not just acceptance of convention. That is why the

McGill Christian Fellowship is sponsoring a week of debates and discussions featuring Michael Horner, a Christian apologist and debater. The schedule of the week is as follows:

January 17th; 7 p m ,  
Leacock Building, room 132,

Michael Horner vs.  
Marguerite Deslauriers,  
Professor of philosophy.

Debate: Does God Exist?

18th; 7pm,  
Leacock building, room 232,

Lecture: "Is There any  
Real Right or Wrong?"

19th; 7pm,  
Leacock 232,

Lecture: "Safe Sex and  
the Search for Intimacy"

20th; 7pm,  
Leacock 232,

Lecture: "Is One True  
Religion Possible?"

# LIVESTOCK CLUB UPDATE

It's that time of year again! With the MacDonald College Royal, Livestock Show, and two judging competitions coming up, the Livestock Club is as busy as ever. Here's a brief rundown of what we're doing:

**Animal demonstration:** This will take place Friday Afternoon, February 10th, from 1PM to 3PM. Members of the Livestock Club will be demonstrating to the public some of the techniques involved in preparing and showing an animal.

**Judging Competition:** This year we will be hosting two competitions: In addition to the interprovincial competition which we host every year, we are also hosting a Quebec intercollegiate competition at the same time. Both will take place on Feb. 10 & 11.

**Livestock Show:** This will take place on Saturday, Feb. 11th, from 8:30AM to 5PM. For further details see the accompanying article.

# POEMS

God bless theHarvest  
(A tribute to the forgotten paper)

If tomorrow all the things were gone  
I'd worked for all my life  
And I had to start again  
With just my workboots and pen  
I'd thank my lucky stars  
To be living here today  
Cause the HARVEST still stands  
For the Mac Spirit  
And they can't take that away.

I am proud to be part of the HARVEST  
Where at least I know I'm affiliated  
And I won't forget the ones who left  
Who gave this paper to me  
And I'll gladly stand up  
Next to you  
And defend her still today  
Cause there aint no doubt  
Mac wouldn't be the same  
Without the HARVEST

The JAC guys wont do it  
They have their own  
Quite popular if you may ask  
McGill downtown?  
Are you kidding me  
They even export some to us  
That's some spirit!  
Coz the hard truth is  
No one else will do it  
It's either we do it  
Or buy a coffin for the HARVEST.

From Barton to Raymond  
From Macdonald-Steward to the Centennial Centre  
From Laird Hall to Robertson Terrace  
From the farm to the Athletic centre  
And from Mac campus to off-campus  
It's hard to believe  
We have nothing  
To talk about and share  
If we are not proud of the HARVEST  
WHO WILL?  
Long live the HARVEST

Adapted for the HARVEST by  
Ken Wiyo

BOWSER AND BLUE

COMMING ON THURSDAY  
FEB. 2ND  
*at Macdonald  
College*
